- **Front-End:** React, React-Router-Dom, Axios, Tailwind, CSS, HTML
- **Backend:** Node.js, Express.js, MongoDB, Jwt, Firebase
- **Tools:** VsCode, Git, Github, Figma
- **Others:** Hardworking, Active Listening

PROJECTS

CAFE RAIN (MERN)

 [Live Link](#)

[Source Code](#)

Features :

- Implemented a MongoDB database to store food item information and integrated a dynamic search bar allowing users to search by name or category.
- Developed an admin panel dashboard for user and food item management, including add, edit, and delete functionalities, and secure login with role-based access control.

Tourism Vision (MERN)

 [Live Link](#)

[Source Code](#)

Features :

- Developed a fully responsive tourist spots platform using React.js.
- Developed an admin panel dashboard for user and food item management, including add, edit, and delete functionalities, and secure login with role-based access control.

HealX (MERN)

 [Live Link](#)

[Source Code](#)

Features :

- Payment System and History: Stripe payment integration for secure transactions and users can view a comprehensive history of all their payments.
- Product Slider: Admin-controlled featured medicine slides. Category Cards: Displays categories with medicine count, and navigates to detailed category pages.

Technology Used :

- React.js, Firebase, MongoDB, Express.js, Tailwind CSS, Github , and various npm packages.
